

WEBINAR SERIES

The **Chair in Energy Sector Management** at HEC Montréal presents:

Climate, Energy Transition and the Use of Natural Gas in Freight Transportation: Pros and Cons

Wednesday, May 17th 2017 | 4:00 to 5:00 pm

@ HEC Montréal – ON-LINE LIVE WEBINAR

Guest Speaker | Rosa Dominguez-Faus

Program Manager, Sustainable Transportation Energy Pathways, Institute of Transportation Studies, **University of California Davis**

Summary | Natural Gas is abundant in North America and has some clean burning fuel properties. This talk will discuss the potential for natural gas to penetrate the transportation market in US, its environmental benefits, and barriers to adoption. This talk will also discuss whether natural gas could serve as a bridge to lower carbon fuels such as renewable natural gas and hydrogen.
